# X-Stone™ - MADELI's True Solid Surface

Madeli's X-Stone™ "Solid Surface" collections of countertops and basins are manufactured with exclusive and proprietary blend of solid surface ingredients to achieve a Glossy White finish. X-Stone™ Solid Surface offers superior quality and benefits when compared to most engineered or surface-coated mineral composite products.

Unlike other composite materials which are fabricated with a thin colored polyester cap layered over a polyester / limestone substrate with hollow and void areas, X-Stone™ is a non-porous and monolithic material. It's solid all the way through and its finish is infinitely renewable if damaged. X-Stone's Glossy White finish is resistant to stain, mold and mildew. It's easy to clean and maintain.

Due to its 65% organic ATH (Aluminum Tri-hydrate) composition, X-Stone is fire retardant and 30% lighter than other "less than solid" tops. Its surface is also harder and offers superior scratch resistance.

Madeli X-Stone™ Collection stands by its 10-year Limited Residential Warranty.

This Collection offers great storage and functionality with spacious deep drawers complete with soft-closing, 18" full-extension European hardware and polished chrome, satin brass, matte black, polished nickel or brushed nickel pulls. # The Frosted Edge

COLLECTION

Add a rich and peaceful feeling of snow frosting to your bathroom with Madeli's new **Frosted Edge Mirror Collection**. With Madeli's new **DualFrost™ Technology**, both front and back of mirror edges are etched to bring a true ice frosted border effect to your bathroom mirror for a serene modern look.

While most mirrors offer a first generation grey protective coat, Madeli's 2nd generation mirrors are engineered with **GreenShield™**, a green protective back-coat which is harder, more scratch resistant, longer lasting and offers a better protection for peace of mind.

# X-Stone™ - MADELI's True Solid Surface

Madeli's X-Stone™ "solid surface" collections of countertops and basins are manufactured with an exclusive and proprietary blend of solid surface ingredients to achieve a Glossy White finish. X-Stone™ solid surface offers superior quality and benefits when compared to most engineered or surface-coated mineral composite products.

Unlike other composite materials which are fabricated with a thin colored polyester cap layered over a polyester/ limestone substrate with hollow and void areas, X-Stone™ is a non-porous and monolithic material. It's solid all the way through and its finish is infinitely renewable if damaged. X-Stone's Glossy White finish is resistant to stain, mold and mildew. It's easy to clean and maintain.

Due to its 65% organic ATH (Aluminum Tri-hydrate) composition, X-Stone is fire retardant and 30% lighter than other "less than solid" tops. Its surface is also harder and offers superior scratch resistance.

Madeli X-Stone™ Collection stands by its 10-year Limited Residential Warranty.
